

## HOSPITAL DISCHARGE FORM

Patient: Jim Jones

Chart: 12-JJ-3456

Treating Physician: Dr. Samuel Ordman

Primary Diagnosis: Anaphylaxis

### Notes:

A 46 y.o. male was admitted February 19, 2011 at 12:30 PM in anaphylactic shock. Patient was treated with epinephrine by EMT prior to arrival at ER.

Epinephrine appeared to stabilize reaction and patient was admitted for observation.

When stabilized, patient indicated that he started ANASPIRIN therapy that morning and had a glass of wine with lunch and immediately went into respiratory distress.
